**Single-Use Feminine Healthcare Range including Single-Use Vaginal Speculum Proctoscope Coil Remover and more [Coil Remover]**

**Coil Remover**

Designed specifically to remove contraceptive coils

**Protection Against Risk of Cross-Infection**

Individually packed to guarantee sterility and eliminate the risk of cross-infection and potential litigation issues. It also eliminates the need for costly cleaning and re-sterilisation.

**Highly Effective Design**

V-shaped design of the grip ensures the coil is removed successfully. The angled tip gives the user greater control and accuracy when locating coil threads and locking them in position. The 3/2 tooth design grips and traps the coil threads in a secure manner.

**Comfort**

Ergonomically designed. Warm for patient comfort.

**Compatibility**

Designed for use with all kinds of Speculum.

**Secure Locking Mechanism**

A secure lock for a firmer hold and user confidence.
